Online

2024Q4

The Rolling Scopes School

React Course (*Certificate*)

Online

2026Q2

PROJECTS

NextPizza | Nextjs, Postgresql, ShadcnUI, TailwindCSS, BetterAuth

nextpizza.uz

- Built a full-stack pizza ordering application using Next.js 16 (App Router) with React 19 frontend and PostgreSQL database via Prisma ORM
- Developed dynamic product catalog with advanced filtering, cart management using Zustand state management, and multi-step checkout flow
- Implemented OTP email verification and user authentication with Better Auth, including user profiles and order history tracking
- Admin credentials: login: tjdeveloperabc@gmail.com, password: 159951

Manzillar Tizimi | NextJS, Prisma, Leaflet, ShadcnUI, TailwindCSS

manzillar-tizimi.uz

- Built a full-stack address registry management system using Next.js 15, React 19, Prisma ORM, and PostgreSQL for managing Uzbekistan's administrative address data
- Developed interactive Leaflet map with GeoJSON support displaying regions, districts, mahallas, streets, and properties with real-time filtering capabilities
- Implemented role-based authentication system enabling secure user access control and data management
- Admin credentials: login: manzillar, password: 159951

Geonomlar | React, TypeScript, Node.js, Express, Drizzle, Ant Design

cabinet.geonomlar.uz | geonomlar.uz

- Built a full-stack geographic object naming management system using Node.js, Express backend with React and TypeScript frontend, and PostgreSQL with Drizzle ORM
- Implemented multi-step government approval workflow supporting 10 distinct user types with role-based access control and permission management
- Developed interactive map interface for geographic data visualization and object location management across Uzbekistan
- Created public citizen portal with Telegram authentication enabling users to submit and track naming proposals
- Built comprehensive voting system for community participation in geographic nomenclature decisions
- Admin credentials: login: superuser, password: portfolio159951

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL (PostgreSQL)

Frameworks: React, Node.js, Next.js, Express

Libraries: TanStack Query, Zustand, Better Auth/JWT, Tailwind CSS, ShadcnUI, Ant Design, Mongoose

Databases: PostgreSQL, MongoDB

ORMs & Query Builders: Prisma, Drizzle, Sequelize

Developer Tools: Git, GitHub, Postman

LANGUAGES

English: IELTS 6.0

Russian: Intermediate

Uzbek: Native
